EVIDENCE JOURNAL COVER SHEET

Name of book or play:

1. This is a simplified note-taking technique done *while you read*. **On the left**, write down page numbers, first and last words of valuable quotes, and words that you don't understand.
2. **On the right**, write down why you felt that citation was significant or write down **questions** you need to have answered in class. Continue this journal on the back or on regular lined notebook paper.
3. The journals will help and you will use these journals in writing your in-class essays. I expect "honest effort" on this work. **You must be thorough to earn full points.**

[Quotes & page numbers, etc.]	[Why did I include this? Why is this important? What else do I need to know?]
